WARRANTY

These garments are guaranteed for one year against defects in workmanship and materials

CHOKO DESIGN's snowmobile suits have evolved to a performance level of excellence appreciated by quality conscious snowmobilers. We strive constantly for excitement in design and excellence in performance. We have earned a reputation as an industry leader, we intend to keep it.

Unsurpassed quality of materials and our innovative construction techniques based on varying fabrics have enabled us to develop a high-tech garment that will create a barrier of thermal protection against the elements, while insuring the ultimate blend of comfort and function.

CDI International Inc. - Choko Design

In order to guide you in the selection of the best Choko Design garments and accessories for your needs we have established a rating system.

The scale depicts our warmest garments and accessories with a descending scale.

10+ being our warmest. More active people should opt for a vented jacket.

**Prices, specifications and materials may change without notice.*

- Designed to keep you mobile and afloat, not weighed down in the event of an unforeseen water emergency.
- Floataid Technology helps with initial Cold-Water Shock; Cold-Water Shock is a real danger in water below 15°C (59°F). If you do find yourself in the water, Floataid can save your life.
- Multi-Layer membranes create internal air pockets for additional buoyancy.
- Bottom mesh self-drainage system for quick water evacuation allowing for lighter weight when exiting water as well as quicker return to body warmth.
- Floataid's insulation technology aids with body warmth even when wet.

To achieve the maximum floatation time intended by the Choko Design Floataid technology you must combine both the Floataid jacket and pants.

Choko Design's Floataid technology is not approved as a flotation device nor is it Coast Guard approved. Please respect your surroundings and ride cautiously over ice.

IN MEMORIAM OF LUC MORIN

VP OF SALES AND DEVELOPMENT C.D.I. INC
CHOKO DESIGN POWERSPORTS

Luc Morin was a prominent figure in the snowmobile clothing industry for several decades, playing a vital role in the development of apparel for many OEMs since 1990. After joining the Choko Design brand specializing in snowmobile and ATV apparel, Luc was instrumental in establishing our brand as the number one choice in North America. His vision and dedication helped create a comprehensive range of high-quality winter clothing and accessories for the entire family.

Luc's passion for racing brought Jacques Villeneuve on board, who proudly raced for Choko Design for over 25 years. This partnership led to the creation of the iconic PRO RACING Jacket, which became one of the most acclaimed and best-selling products in the history of snowmobile apparel.

In honor of Luc Morin, our cherished VP, colleague, and friend, we are proud to reintroduce an updated, one-time, limited-edition PRO RACING Jacket. This exclusive piece combines the signature racing-inspired look with modern technology, making it a timeless collector's item to be treasured for years to come.

Additionally, CDI Inc./Choko Design will donate \$100 from every jacket sold to support pulmonary cancer research, continuing Luc's legacy of care and contribution.

NYLON CLAW MITTS

RECHARGEABLE HEATED GLOVES

CA\$309.95
US\$275.95

- 600D Durable Nylon Cordura outer shell with reinforced full grain leather palm and thumb.
- Waterproof/breathable Hipora® membrane liner.
- Polar fleece lining.
- Thinsulate™ 300 grams on back of hand 150 grams on palms and finger sides.
- 3 Stage Temperature Heat Settings adjusted by an exterior push control button on outside of gauntlet. The HIGH setting will warm your hand up quickly within seconds. If you do not require that quick heat drop it down to the MEDIUM setting. Once your hands are nice and warm, reduce it down to the LOW setting to maintain the temperature and save battery life.
- Heat elements around each finger on the backside of glove providing up to 7 hours of heat. Battery life depends on power setting and conditions.
- Adjustable bungee cord wrist closure system to fit snug around jacket cuffs.
- Curved finger design for ease of movement.
- 3M Scotchlite™ reflective material for safety.
- Left-hand is equipped with a visor wiper.
- Gloves come with rechargeable 7.4 Lithium Polymer batteries and wall charger.

- 600D Durable Nylon Cordura outer shell with reinforced full grain leather palm and thumb.
- Waterproof/breathable Hipora® membrane liner. • Polar fleece lining.
- Thinsulate™ 300 grams on back of hand 150 grams on palms and finger sides.
- 3 Stage Temperature Heat Settings adjusted by an exterior push control button on outside of gauntlet. The HIGH setting will warm your hand up quickly within seconds. If you do not require that quick heat drop it down to the MEDIUM setting. Once your hands are nice and warm, reduce it down to the LOW setting to maintain the temperature and save battery life.
- Heat elements around each finger on the backside of glove providing up to 7 hours of heat. Battery life depends on power setting and conditions.
- Adjustable bungee cord wrist closure system to fit snug around jacket cuffs.
- Curved finger design for ease of movement.
- 3M Scotchlite™ reflective material for safety.
- Left-hand is equipped with a visor wiper.
- Gloves come with rechargeable 7.4 Lithium Polymer batteries and wall charger.
